Hello Brad,

Welcome to your Personality Profile, please check the birth details of your horoscope are correct. This report sets out to give you an assessment of your personality and character development by interpreting the different parts of your birth chart.

Your birth chart represents a map of the solar system for the exact time and place of your birth, it's a blueprint of your personality and represents a set of potentials, with the contents being added through the experiences of life.

Most people are aware of the Sun's zodiac sign that they were born under, however, it's not only the Sun sign that exerts a powerful influence over the birth chart and character. The Rising Sign, the Moon, the planets, the angles they form to each other, called 'aspects', their zodiac sign and house positions also play an important role.

As you read through this analysis, you will occasionally notice that contradictory information may be given. This is to be expected, as each individual's character is extremely complex. For example, at times we can be aggressive and confident, and at other times withdrawn and moody. And if planetary patterns seem to be repeated time and time again, that's because the analysis is focusing on a particular and very important strength or weakness within your character.

The birth chart is comprised of three basic factors.

- 1.** The Planetary Aspects (angles) formed between the Sun, Moon and planets, as seen from the Earth, are represented by the lines in the centre of your chart and the intensity is indicated by the number of stars each aspect is given in the report.
- 2.** Each planet is located in a particular Sign of the Zodiac. The symbols for each Zodiac Sign are placed around the edge of the birth chart, Aries, Taurus, Gemini, Cancer, Leo, Virgo, Libra, Scorpio, Sagittarius, Capricorn, Aquarius, and Pisces.
- 3.** Each planet is also located in a particular House, numbered 1 to 12 in the birth chart.

How the planetary positions of your birth chart relate to each other are interpreted on the following pages outlining your potential development. Your birth chart, is indeed unique, although many people may have, for instance Mars in Scorpio, or Venus in Capricorn, and hence have certain traits in common, the number of ways in which the three factors of Planetary Aspects, Zodiac Signs and Houses can be combined is infinite.

The 'Aspects' are given a Star Rating from one to five to show their relative importance in the Profile. To the right of each pair of 'aspect' symbols is a group of five stars ★☆☆☆☆, the more dark stars there are the more important the connection. The keys for the planets and the other symbols and terms used are given at the back of the report.

Personality Profile Interpretation

Your birth chart shows the exact positions of the planets at your time of birth. It also tells you the sign of the Zodiac that was rising at your time of birth, known as your 'ascendant'. How the planetary positions of your birth chart relate to each other are interpreted on the following pages outlining your potential development. The interpretation begins with your overall character and temperament.

Brad's character

Brad's dependability

You are solid and dependable, having perseverance and staying power. You can endure situations, far longer than most, determined to see them through to the end. In fact, you often have the end in sight even before you begin. You are strongly sensual, in the sense of needing to feel the physical proof of things. That is, 'what can't be touched isn't real'. This applies equally to intellectual concepts, you like abstractions to be explained and made understandable in a logical, practical, way. When they are not, you can show your objection by becoming stubborn and uncooperative.

Brad's thoughtfulness

You need to develop and maintain your powers of self-expression and perception. Not that these faculties don't function, but you tend sometimes to let them slide and therefore, your capacity for insight and awareness can become subdued and clouded.

Brad's emotions

You might find it difficult at times to relate to, and appreciate, others on an emotional and instinctive level. This may also apply to your experience of your own inner life. Try to maintain a more permanent sensitivity towards your own and others feelings.

Brad's temperament

Brad's consistency

Your ability for concentration and discipline may be somewhat erratic at times. Accordingly, others might find it difficult, albeit mistakenly, to feel from you a corresponding sense of conviction and constancy.

AS

The Ascendant or Rising Sign

Represents the area of life concerned with your sense of self-identity, the impression you give and how others see you.

AS in

Self-identity

Possessing the courage of your convictions, other people's opinions won't matter. Believing in yourself, you tend to attract good fortune and unusual opportunities. Ambitions are geared to large scale goals but beware the tendency to take things for granted and assume that everything will go your way.

The Sun

Your essential self, the focus of your being. It indicates what you are striving to become as an individual.

**Vitality**

Your nature is outgoing and open-minded, with a need to explore and find out what's just over the horizon. This need can be expressed literally through travel, or on a more mental level through the exploration of ideas and philosophical systems. You may combine both. You're adaptable and versatile, able to make the most out of any situation. You see life as a great adventure and it's the future and future possibilities that really draw you on.

However, at times, you may be prone to exaggeration and your blindly optimistic and boisterous nature may make you somewhat careless and irresponsible.

1st house

The area of life concerned with your sense of self-identity.

**Self expression**

You have a need to be noticed. Your sense of self-worth and individuality is tied up with the impact you have on others. You don't like to go unnoticed, but need to be in the forefront of things where you'll be seen as someone whose ideas and opinions are worth considering.

However, this need to push yourself forward can be overdone, making you appear to be pushy or arrogant. In reality you're actually extremely sensitive to other people's views of you, so you may tend to over-compensate by expressing yourself too strongly.

**Self control**

You have a powerful need to be in control. You feel, perhaps as a result of childhood experiences with your parents or some other authority figure, that life is a constant battle to dominate or be dominated. You may not even be fully conscious of this tendency, therefore at times you can alienate others without your being aware of the reasons.

Build up of inner turmoil or tension will eventually be released, often explosively; hence you can exhibit perfect self-control in the most difficult circumstances, but hit the roof over something trifling and unimportant.

**The Moon**

Represents the emotional and compassionate side of your nature and your immediate emotional reaction to life pleasures and problems. It also indicates attitudes instilled in early childhood.

**Habits**

Your behaviour may be influenced by a deep need for something that's secure and permanent in your home and emotional life. This may be the result of a lack of such material and emotional security in your childhood or the result of values inherited from your parents.

2nd house

Possessions and what you own, accumulation of wealth and resources or acquired skills and gifts which give you a sense of value, worth and personal security.

☾ in 2nd House

Attitudes, emotions and specific needs

Past experiences will have resulted in a need for possessions and material wealth in order to feel comfortable and at ease with yourself. The fluctuating nature of the Moon, however, means that your finances may be subject to changes and instability.

You may also have an emotional attachment to the things you own, particularly things that are in some way related to your past or your family. You have probably inherited your sense of values from your family background, particularly from your mother.

Mercury

Represents your communication skills and how you think and receive information from others.

☿ in ♊

Mentality

Your thinking is generally grounded in the here and now, and concerned mainly with the need to provide material necessities. You're capable of concentrated and methodical thinking, especially if it's directed toward some ambition or goal, to which you can apply your mind with a great deal of perseverance and discipline.

The way you communicate with others may also occasionally be influenced by practical considerations, or with a view to attaining some goal or ambition. There can be a tendency toward pessimism if things don't work out as you thought they would, but your persistence will usually pull you out of it.

☿ in 2nd House

Communication skills

Your thoughts will be heavily influenced by finances and the acquisition of material security. You'll generally be quite good at looking after your own financial resources, keeping careful account of all your incomings and outgoings. However, at times, you may tend to worry too much about these matters and therefore financial problems could cause difficulty with your nerves.

Charm

You'll generally be fair and balanced in your thinking. When you express your opinions or have to make a decision on some issue, you'll more often than not take care to examine all sides and reach an impartial conclusion. You don't really like to offend anyone, not even people you disagree with.

Possessing a natural charm, you would make a good public speaker and should also get much pleasure from writing and the arts. You have a natural ability to turn your ideas into money and, as others generally respect your opinion, you usually have no trouble getting financial backing.

**Confident**

When necessary, you're able to express yourself with forcefulness and confidence. However, beware the tendency to talk others down. You'll also need to be aware that other people are entitled to their own opinions, even if you totally disagree, otherwise you may gain a reputation as being rather arrogant.

Having said this, you have a great deal of mental energy that you're able to apply tirelessly toward achieving your goals. All you need to remember is that others may not be able to keep up with your rather exhausting pace. Your mind is restlessly eager to gain new information; you are never satisfied with what you know.

**Conditioning**

Your mind is always on the go and eager to learn as much as you can. You'll probably achieve this through study and training. However, at times, extreme optimism may prevent you from seeing or accepting obstacles to your plans. At these times therefore, you'll need to be completely honest with yourself as to what is, and isn't, possible.

There may be a conflict between your intellectual and religious beliefs. Because of this, you'll probably end up searching for a philosophical outlook that is both intellectually and religiously satisfying, but the influence of past conditioning may cause much conflict before you finally resolve the issue.

**Inventive**

Your mind works so fast that you may consider other people's thinking to be slow by comparison. You can identify problems quickly and make logical leaps that others may ponder over for a long time. When you reach a conclusion it seems as if the answer just came intuitively, when it was in fact the result of extremely fast analysis. You have an original and inventive mind, open to new ideas and new ways of thinking and you seek new knowledge avidly.

**Training**

You have a sensitive and intuitive mind, often sensing and seeing things that others may miss. You have a strong imagination with thoughts that can be inspired, but you don't generally waste time in daydreaming, as the ideas that come to you have to stand the test of reason. You're idealistic, but not unrealistic.

You need to plan some kind of goal to follow and possibly get into higher education in order to make the most of your imagination and understanding and open your mind to limitless possibilities; some formal training or discipline is needed.

**Analyst**

You have an analytical mind that is able to penetrate beyond surface appearances. You're therefore suited to any form of research or investigation since you always want to get to the truth of any matter.

You need to find some kind of meaning to life and your experiences and then to communicate the understanding and knowledge gained from your experiences to others. But do beware being too opinionated as at times you'll identify too strongly with what you believe in, and will defend your viewpoint without compromise.

Venus

Represents how you express your emotions within love, marriage and other personal relationships. It also indicates your attitude towards money, possessions and your aesthetic values.

Capacity for love

You have a rather conservative and practical approach to relationships. You're generally attracted to people who promise security and long-term commitment. You're also capable of seeing the potential in your partner and pushing them to achieve the highest that they're capable of. This may take some time and investment on your part, but you're patient.

You need to know where you stand at all times, from day to day arrangements to long term plans and goals. It takes some time for you to trust enough to allow others to get close to you, but when you're able to relax, others see the warm sensuous side of your nature.

Financially, you always try to be in control. You keep careful track of your bank balance, as you need the security of always knowing your position. This stems from a need to maintain financial independence. You go for the long-term investment, rather than risky, 'get rich quick' schemes. You have a talent for taking nothing and building something solid and secure from it.

in 2nd House

Love and what you value most

You love the good things in life and have the ability to attract the things you want. You may occasionally, however, place too much value on material possessions and creature comforts. When in love, you have a need to form stable and lasting relationships, but may become too possessive.

Unconventional relationship

At times you may experience some difficulty and sudden changes or breaks in your relationships. If people try to get too close too quickly you'll rapidly back off.

You also probably have little regard for traditional forms of marriage since this would considerably reduce your freedom to do what you want, a freedom you don't easily relinquish. Any form of jealousy and possessiveness particularly horrifies you.

Even if you are involved in a serious relationship, or married, you'll still demand a great deal of freedom and independence for yourself. You may try to suppress these needs for a while out of respect for the other person's feelings or wishes, but if you do so for too long, the tensions will build up until your need for freedom erupts to the surface.

Charisma

Your personal magnetism is charged with a charismatic quality that makes others aware that you have hidden depths beneath the surface. This same magnetism will easily attract lovers to you and there's every chance that you'll eventually find the right kind of partner with whom you can experience a deeply spiritual and fulfilling relationship.

**Mars**

Represents your sex drive, stamina and how aggressively you assert yourself and express your desires.

**Driving force**

The more aggressive side of your character should generally be well controlled. This doesn't mean that you won't ever lose your temper or do anything on impulse, but you have the capacity to channel your energies into working for long-term goals and ambitions, even if it means a certain amount of self-denial or sacrifice to achieve them.

**Stamina and assertiveness**

You'll have plenty of energy and will be able to assert yourself directly and if necessary, rather forcefully. Restrictions on your personal freedom will rarely be tolerated. You're certainly not the type to sit quietly in a corner - you need to let everybody know that you're around!

**Don't Overdo It**

You possess abundant physical and mental energy but, at times, this energy can be rather undisciplined and uncontrolled. Over the years you'll learn how to channel the energy positively into productive activities.

You'll probably have a desire to achieve great things, and, indeed, you certainly have the ability and determination to do so!

However, there's also a tendency to overdo things. In your desire to get ahead you're generally prepared to work long and arduous hours, often at the expense of the needs of your physical body, and possibly even your domestic life. You'll therefore need to learn when to rest if you wish to avoid nervous exhaustion and to say 'hello' to your family occasionally, if only to let them know that you are still aware of their existence!

**Risk taking**

Your energy level is bound to be high, as you're always on the go with plenty to occupy you!

You value your personal freedom and independence highly in all areas of your life, from your job to your relationships. In your work, you'll certainly not be satisfied with a normal routine 9 to 5 job - you need something that keeps you on the move and maintains your interest.

You'll approach anything that really interests you with a great deal of energy and enthusiasm. In your personal relationships, independence and freedom of action are again very important to you and you will not tolerate a relationship that confines or restricts you for too long.

You are a free spirit with a desire for adventure and many people will admire you for your initiative, originality and your willingness to take risks that often pay off.

Powerful motivation

Your physical drives and desires are strong and intense, but controlled and purposeful.

You have the ability to act quickly in any emergency and to make far-reaching decisions and commitments that others may need a long time to consider. When necessary, you can also be quite fearless in defending your own rights and those of others.

Jupiter

Represents expansion, your sense of fun, optimism and generosity. It also gives information concerning your religious and philosophical beliefs.

Optimism and understanding

You will need to maintain a high energy level, coupled with a sense of self-esteem, in order to make the most of opportunities that come your way. This will be easy enough when things are going well, (at such times you'll feel confident and determined) but when things go wrong your determination may dissolve or you could react with anger.

You're an independent individual who needs freedom to pursue your own goals and what's more - you don't like to be obstructed on the journey.

4th house

Family and cultural conditioning, your a sense of belonging, deep inner feelings and habit patterns. Experience of your parents, your own home, and conditions surrounding you during the second half of life.

Optimism and understanding

Your home life can be a source of inspiration and faith, provided that it is not experienced as too restricting.

You may have inherited a religious, philosophical or nomadic nature through your family background or early home conditions.

You have a powerful and expansive spirit wanting to be freed. In you there is an underlying optimism and faith in life that will come to the fore as you grow older and which promises that the second half of life will be fulfilling and rewarding.

♈ ♎ ♏ ★★★★★

Expectation

You could become obsessed with the need to achieve at all costs.

Never satisfied with what you have already gained, you may find yourself constantly seeking to press ahead and do several things at once, tending to brush aside other people's objections or advice to slow down and possibly being convinced that they are trying to hold you back. At times, however, those closest to you may feel neglected and left out and the resulting domestic problems could bring life to a crashing halt.

However, if you do take care to include others in your plans, and don't try to do everything yourself, then you'll find that you have the support you need to achieve whatever you desire and still have time to relax and just enjoy life!

♄

Saturn

Represents your sense of responsibility and limitations. It shows how you react to setbacks and the areas in which you are most fearful and insecure. Nevertheless, it is also the planet that teaches the important lessons of life and can become your greatest strength.

♄ in ♊

Challenges

It's important that you set objectives in life because once they have been determined they will be followed through to completion. You also enjoy being with others and belonging to groups or associations, which helps give security to your personal and professional life.

3rd house

Your relationship to the immediate environment. Experience concerned with communication, learning, intellectual and educational skills. Relationships with immediate relatives, brothers and sisters if you have any.

♄ in 3rd House

Setbacks and insecurities

You may occasionally have some difficulty communicating your thoughts or ideas to others. You might at times even feel intellectually inferior so you stay silent when it would be more appropriate to speak your mind. On the other hand, you may over-compensate by chattering on endlessly about anything except those things that really matter to you. Either way there could be times when you feel that no-one really understands you.

In fact, you have a capacity for deep and concentrated study, and the ability to turn dreams into reality especially in professions connected to communication.

♄ ☐ ♀ ★★★★★☆

Mixed dreams

At times you may feel unable to achieve a sense of real security, feeling that the results of all your efforts can at any moment be washed away by some unforeseen tide of events. Occasionally there's also a conflict between your sense of reality and your dreams and you may therefore swing between being a hard-headed pragmatist and a hopeless dreamer.

**Uranus**

Represents the expression of your need for freedom and independence and the way you choose to experiment with life. Uranus is the motivation behind your future dreams.

**Independence**

You're not likely to stay in a job out of a sense of duty or tolerate work that has become routine and boring. Your work needs to allow you scope for originality, inventiveness and movement. You'll want to do things your own way and will dislike being bound by other people's rules and regulations. This could therefore lead to many disruptions and changes in your career. Beware being over critical. Unusual ideas about food may also lead to strange eating habits. There's also a slight danger of stress related illnesses and to being more accident prone than most.

9th house

Your search for knowledge and awareness through travel and higher education. The law, religion and the use of your higher or more intuitive mental faculties.

in 9th House

Individuality

You search for truth in the realm of philosophical and religious thought. You need to find a philosophical or religious belief system by which to order your life. You'll not, however, be content to accept the beliefs of the past.

You're able to bring new concepts and ideas into whatever field you're working or studying in, although this eager search for knowledge may cause you to suddenly abandon the work you're doing before it's completed.

Travel in foreign lands and meeting people of other cultures would be particularly beneficial to you, deepening your level of understanding and revealing possibilities that you've previously been unaware of.

**Forces of change**

Everyone around your age is part of a generation that's not fooled by empty promises. Freedom for the individual and environmental issues will be of importance to you.

**Neptune**

Represents your spiritual self, dreams, imagination and creative abilities.

**Idealism**

Born between 1957-1970 you are part of a permissive generation whose experimentation with sex and drugs invaded everyday life and eroded many traditional family values. This was also the most prominent time of the Cold War, a time of spies and secret surveillance.

12th house

Surrendering to forces that are beyond your control, a higher power or ideal. Greater self understanding and spiritual goals. Large institutions such as hospitals and prisons, where many people end up if the self-surrender described above is overdone, or made to the wrong ideals.

 in 12th House

Intuition and uncertainty

You can be extremely sensitive to the psychic atmosphere around you. You're open to philosophical ideas such as reincarnation and karma and probably feel, at times, quite strongly that we're not always fully conscious of all the forces acting in our lives. Your own intuition and psychic sensitivity can be a source of guidance in your life, if you can learn to hold onto and understand its messages.

   ★★☆☆☆

Generational influences

Starting in 1942, and for the next hundred years, everyone born during this time will be affected by the changes taking place in the world's collective psyche. The keynote of this entire period will be the complete transformation of our existing scientific, religious and political belief systems.

Pluto

Represents the secretive side of your nature, your obsessions and shows us how to come to terms with and deal with your deepest insecurities.

 in 

Forces of change

Pluto was in Virgo between 1957-1971. When you were born your generation experienced a time of powerful political forces such as trade unions, unparalleled changes within the health and welfare system, a time of tremendous changes within many work environments due to computers and automation. New developments in birth control led to greater sexual freedom, and experimentation with psychedelic drugs revealed previously unknown levels of consciousness.

10th house

Represents your ambitions, what you aim for and hope to achieve. Your career or position, your relations with authority figures and the way you experience your parents.

 in 10th House

Secrets, powerful obsessions

You try to find a career that allows you to express power and authority in some way. On the other hand, you may be deeply suspicious of anyone who does hold this kind of authority, with a desire to knock them off their pedestal if you get the opportunity.

In any event, you'll pursue your own goals with a great deal of power and intensity that will not be thwarted by opposition or setbacks, not for too long anyway. It could be that this energy comes from the unconscious desire to live out the unfulfilled ambitions of one or both of your parents.

MC

The Midheaven

Represents your ambitions and potential for achievement.
