Forecaster for Johnny Depp

One Year Forecaster

As the planets move around the zodiac they make 'aspects' or angles to the planets in your birth chart. In astrology these 'aspects' are called 'transits' and they are detailed in the pages that follow.

Sometimes a planet may aspect another, then appear to move forwards and then backwards for a long period of time recreating the same 'aspect' several times over. This backwards motion is known as 'retrograde' motion.

This forecast can be used as a helpful guide to the year ahead. At all times it is for you to choose the best path to follow and develop the most positive parts of your character.

♂ transiting your natal 9th House

Mind of your own

This can be a time when you are more intellectually active than usual, with thoughts turning towards education, philosophy or religion. Your mind will be quicker and better able to grasp broad concepts and abstract ideas. But do not take yourself too seriously and do not force your own beliefs and views on others, allow them to reach their own decisions. You may travel more than usual, but there is a possibility of minor accidents or illnesses whilst on your journey so take extra care of yourself. Legal difficulties may also cause problems.

Relationships

♃ transiting your natal 7th House

Relationships with others should work well at this time, teaching you more about yourself. You will now meet people who can help you and in turn, you will shower loved ones with generosity, spoiling them with an abundance of affection and small gifts. A new lover may come from a completely different culture or background, possibly someone older or from abroad. Legal matters should also work out to your advantage but beware overconfidence. Do not overlook details, which could trip you up. This is also a good time for medical consultations or therapy of any kind.

♁ transiting your natal 2nd House

Money supply

Expect added financial responsibilities and burdens. This is a time when you will probably have to make do with less, when your resources are likely to be stretched to the limit. Feeling insecure about your financial situation, there is also the danger of taking unethical short cuts to make quick money. However, this is a good time for assessing what is important to you and what you really value. You may have to let go of some material, spiritual or emotional values which may be standing in the way of personal growth.

From about: 1 June 2009 to about: 31 May 2010

 transiting your natal 8th House

Changes

Sudden changes of fortune are now likely, so expect disruption in joint finances, insurance, tax or inheritance. Do not become dependant on someone else's finances during this time, you will only come to resent it in time to come. Feeling the need to break free from restrictions and attachments imposed by others, you will now want to go your own way. Some phases of your life may end suddenly and irreversibly. Fascinated by the meaning of life and death, a new understanding of these matters will be sought. An exciting yet unstable love relationship may also start and end within a short space of time.

From about: 1 June 2009 to about: 31 May 2010

 transiting your natal 7th House

Critical

You may now approach relationships with excessive romantic idealism. Of course, you could be lucky and meet someone who is as idealistic as you are but such individuals are very rare. It is more likely that you will place your lover on too high a pedestal, and then be disappointed when they do not live up to your expectation. You may also be attracted to people who you feel need your help. In surrendering your own needs you may feel you are showing true love. But, you too are only human, and sooner or later your own needs will resurface, putting a great deal of strain on the relationship. Do not place unrealistic expectations on others, and do not allow them to walk all over you. This is not a good time for legal proceedings as poor communications and misunderstandings are likely.

From about: 1 June 2009 to about: 31 May 2010

 transiting your natal 5th House

Self expression

You should now avoid gambling or speculation as there is a possibility of losing control and destroying everything you have built up. On the other hand there is also the potential of accumulating riches or power, depending on how you handle the situation. Children may now also be the source of inspiration and transformation or there may be power struggles with your children. Love affairs and sexual relationships could be intense, obsessive and passionate - also undergoing drastic changes or disruption. However, any relationship that survives this period will grow from strength to strength.

From about: 1 June 2009 to about: 3 June 2009

Sheer determination

This could be a time of tremendous achievements - a time in your life when you are not prepared to settle for second best. Others will now look to you for leadership. Your aggression and sheer determination will enable you to do things that you've only dreamed of in the past.

Transiting ♃ ☐ your natal ♀

Feeling low

Low energy levels could leave you feeling drained of all vitality during this time. Your body could now be repaying the effects of recent over-indulgence - well, you tasted the goods now you will have to pay the bill!

Work and career productivity could also suffer through failure to perform duties efficiently and competently. You just will not be bothered with all the daily pressures - pushing away responsibilities, hoping they will just disappear. Consequently, very little will be achieved during this period.

Beware financial extravagance during this time - too much cash could be squandered on luxuries and fast living which, in months to come, you will feel, you neither like nor need. Again, the bills will start rolling in!

Personal and love relationships could also find themselves in the firing line. You could become the victim of a misunderstanding, or someone you love and trust could now be trying to take advantage in some way. Or, this insincere and manipulative way of behaving may originate from you, being directed towards unsuspecting loved ones.

Transiting ♃ ✕ your natal ♀

Mental debate

During this time your tremendous restless mental energy and curiosity will make you look in different and unusual directions for experiences that are new to you. Without this constant stimulation, boredom would quickly set in. Your reactions will be like quicksilver and very little will escape your attention.

You are likely to receive unexpected news, or be the bearer of unexpected communication that could totally surprise others.

Travel is likely, either abroad or short distance trips that you would not normally take. There may also be an opportunity to take up new study or training, although your concentration may be poor.

You will probably form new friendships with people who can expand your horizons and satiate your need for mental debate and intellectual discussion. There is also likely to be more contact with brothers, sisters and close friends.

As you will be open to new ideas and experiences, your mind will be flexible and more willing to accept, and listen to, other people's points of view. During this time, intuition and instinct will play a larger role in decision making than practical, logical thought.

Whirlwind romance

Whirlwind and impulsive love affairs could suddenly start and end all within a few short weeks. You will want more freedom in your life. Rules may be broken; but you will thoroughly enjoy yourself along the way! Wanting to escape humdrum daily routine, you will be in search of excitement and adventure during this time - and you are likely to find it!

You may find yourself involved in unusual and unexpected personal, social and professional situations. This is a time when you are likely to make the very best out of sudden, exciting opportunities - either in business, friendship or love. The people that you meet during this time will be very different from your usual social circle.

Feeling carefree, energetic and spontaneous, you will dazzle everyone around you! With life's fortune turning to your advantage, nothing could upset you whilst you are feeling so high.

Unexpected travel is also likely - again either in your personal or professional life. Journeys are likely to be carefree, happy and possibly lucrative.

Transiting ♃ ☐ your natal ♀

Getting away from it all

This could prove an unstable period for love affairs and marriages causing you to question the strength of your feelings for your partner. Perhaps one of you is being too restrictive of the other, not allowing personal emotional feelings to flow. One of you could now be erecting barriers, or you may now notice that your lover is not the perfect individual you initially thought they were. Perhaps you're aware that you've placed your partner on too high a pedestal, and now feel disappointment that they can't live up to your idealistic expectations.

Rocky and unstable relationships could now crumble, or you may look elsewhere for emotional and physical satisfaction. Therefore, secret love affairs or brief romantic liaisons are now possible.

You may now also choose to relive past memories, and yearn for days gone by. Escaping into the past will seem a welcome relief from the problems and responsibilities of the present.

Drained physical energy and vitality could also make you prone to minor illness - beware relying too heavily on drugs or alcohol. Perhaps it's time to escape to a more tranquil setting - escape your everyday environment for a few days in order to realign mind, body and spirit.

Postpone major financial decisions until stability returns into your life, and avoid excessive gambling or get-rich-quick schemes.

Delving deep

You are likely to be much more independent, confident and self reliant now with ambition and a sense of enterprise enabling you to take bold steps forward. Logic and intuition will be well balanced, creating a greater self-understanding of your own motives and goals in life.

It is time to discard anything that is no longer of use to you; old worn out items, memories, feelings from the past which may, up until now, have prevented you from getting in touch with your deepest feelings and emotions. This is your chance to inject some fresh sparkle and meaning into your life, to start afresh and look to the future.

As your mind will be so intuitively sharp, this would also be an excellent time to involve yourself in any form of research or investigation. Not content with superficial answers to questions, you will delve deeply in order to unearth and understand the truth. You may now come across some secret information previously hidden from you. In any case, the answers that you find may completely change your attitude to life and your way of thinking.

Any work that you undertake now may in some way be connected to rebuilding, i.e. redecorating, refurbishing, etc. However, it could also relate to a subtler rebuilding of your inner self, or a restructuring of your daily life, routine and relationships. Expect significant changes in your life during this time.

From about: 1 June 2009 to about: 11 December 2009

Transiting ♃ △ your natal ♃

Motivation

You will now be able to work as a manager or team leader, with enthusiasm and motivation that will be contagious. Others will both respect and understand your opinions and actions.

This is a time in your life to make any necessary changes, without pain. If these same changes are forced upon you at a later time against your will, you may consider them far more disruptive to your life - and may fight against them.

You will now be creating situations which should bring much more fun, excitement and interest into your daily routine and you are likely to find yourself doing things or meeting people that you've only dreamt of in the past. 'Never say never' - that will be your catchphrase!

So take advantage of any sudden and unexpected opportunities - they may be just the lucky chance that you've been waiting for! Don't dither - now is the time to be quick and decisive - be willing to take a few risks, grab these opportunities and make the best of them before they disappear! Long distance travel could separate you from loved ones - but the rewards should be well worth the temporary sacrifice of being apart.

There will be much more activity around the home and that could mean catching up on long overdue DIY jobs.

Seeing clearly

Vague, dreamy thoughts, which lack clarity and direction, could cause confusion in your daily routine. You may feel as if you are walking in fog, not being able to clearly see what is directly ahead. Deception and dishonesty can also be associated with this period.

Unable to concentrate for any length of time, responsibilities and professional duties may be neglected or even ignored. Therefore, important personal or business decisions and negotiations should be temporarily postponed until this period has passed.

Drained physical energy and excessive self inflicted worry could now make you prone to nervous illness or disease. However, do beware relying too heavily on drugs or alcohol. Transiting ♃ ☐ your natal ♀

Over confidence

Your mind will be full of ideas and plans for the future during this time. Feeling positive, if somewhat unrealistic, you will forge ahead and ignore any obstacles placed in your path. Interference and criticism will not be easily tolerated.

Nevertheless, talking and communicating with others and sharing your ideas will also be important to you - but you must also be willing to listen to their viewpoint as well. Ignoring others' needs and wants will not necessarily be an act of deliberate malice, but a result of exuberance and over-enthusiasm to see your own plans go into action and come to fruition. However, in envisaging an overall large-scale scheme and outline for the future, you may overlook small, but vital, details.

Therefore, in ignoring these small, but necessary and practical details, despite your enthusiasm, you may lack the necessary discipline to put your grand ideas into practice. Too many unresolved petty details could leave your mind confused and in a muddle. The small things of life may start to go wrong, a car breakdown, missing a bus, losing credit cards, etc. Headaches could result.

If possible, temporarily postpone foreign travel or dealings with long distance business negotiations. Also, your privacy may be invaded in some way during this time - perhaps by unwanted visitors suddenly appearing on your doorstep.

From about: 7 July 2009 to about: 28 July 2009

Transiting ♃ ☐ your natal ☉

Struggles

Unexpected disruptions to your life and ambitions may cause you to question the validity of your recent actions. There could be times during this period when you feel that you are fighting a frustrating, losing battle. Suddenly everyone seems opposed to your plans and ideas, challenging and resisting those same plans they supported not so long ago.

Your authority in your job may be undermined in some way - you could be asked to take on menial, low-status work - diverting you from your projected career goals and ambitions. This could obviously lead to moments of frustration and anger. Alternatively, if you are in a high position of authority, you may inflict this antagonistic scenario on others. Either way, the atmosphere at work could be one of indignation and resentment.

Your patience and powers of endurance are now being tested. You may be forced to constantly struggle against obstacles put in your path. This may well take its toll on your health leaving in its wake a sense of tiredness and depression.

Nevertheless, it is possible to convert negative energy into positive. Don't struggle against the tide. Instead, work as efficiently and productively as you can until you see the time when you can start to move forward again.

Sit back and enjoy

This should prove an extremely pleasant, easygoing, and possibly, even lucky period in your life. It is time to just sit back and enjoy all of life's pleasures that come your way!

However, many of you may now be too confident, ambitious and just too restless to sit back and wait for opportunities to come to you! So if you are willing to get the very best out of life and create new chances, change and opportunities for yourself - then you should now expect even more success, rewards and riches. Follow your instincts. As long as you don't tread on other people's toes climbing up the ladder of success, this is a time when you really can't go wrong. Travel could be linked with work - so you could find yourself mixing business with pleasure!

Financially, this could prove to be an extremely successful and lucrative time. Feeling confident that you have the Midas touch, you will be willing to take a few calculated risks. Just make sure that they have been properly considered before rushing headlong into making major financial commitments.

But one word of warning - do watch your weight, especially if you choose the former option of just sitting back and enjoying life. Relaxing holidays taken now will probably be extremely pleasant, lazy and laid back - but extra pounds gained devouring all that wonderful food will take months and months to shed. Be warned!

Common sense

Practical common sense combined with clear, logical thought, should enable you to make ordered, positive and constructive plans for the future. Having planned all the intricate pieces of your life, and then slotted them in a rational order, you will be able to see the whole picture of what is ahead - rather like completing a jigsaw in your mind.

However, this isn't the time to make radical changes, it is the time to prepare the groundwork and build firm foundations for future goals and ambitions. Just ensure that once a goal is set, it will be adhered to.

Possessing sound business sense, this would also be an excellent time to research any new financial, career or professional venture. Understanding your capacity for concentrated mental work, you may even consider some special training or schooling in your current field, or retraining for a completely different career.

Strong, stable powers of concentration and accurate communication will enable you to get any point across - so if you need to convince others, especially people in authority, on any matter, then this would be the time to do it.

However, a word of warning, beware becoming overly obsessed with your own opinions, and too rigid in your thoughts. In months to come your outlook will need to remain flexible in order to progress to the next stage of your plans.

Moderation

During this time you really will not take 'no' for an answer! Being self-assertive is one thing, but your over-confidence could seem rather arrogant and opinionated to others. Lacking both tact and moderation, you could now really put your foot in it! Beware extravagance in all financial and business matters - don't promise more than you can deliver.

Age before beauty

If you have recently experienced problems with a current lover or partner, then now is the time to try to sort them out. Possessing a clearer understanding of your partner's needs, your genuine effort to cement the bonds between you will be greatly appreciated, and reciprocated.

If you are unattached, you could now be drawn to a new love affair. Although any relationship started during this time will not instantly transport you into whirlwind, starry-eyed romance; the allure of a promising, stable, secure and lasting love will be hard to resist. One of you within the relationship is likely to be more mature than the other, either in age or experience.

During this time, you will be drawn to anything which combines beauty and age. Creatively and artistically, you may now take an interest in museums, classical concerts, antiques, heirlooms, vintage cars, period fashion or whatever particular sphere of days gone by most stirs your imagination and love of beauty.

A connection with the past could also stir old memories. You may stumble across an old diary, or a former friend or lover from the past.

Business and financial transactions will also be highlighted during this time. A combination of your practical common sense and intuitive understanding of the needs of all parties will strengthen negotiations and contracts. Promotions and pay rises could also brighten this period.

Obligations

Your thoughts and imagination may now lean towards being fearful, pessimistic and confused rather than open and optimistic. You may feel that no matter what you do, how hard you try nothing seems to be going your way - and that there seems to be no light at the end of the tunnel. But it must be remembered that negative thoughts breed more negativity and self doubt. Having explored the depths of your soul - the light will shine again.

Commitments weigh heavily on the more idealistic and optimistic side of your character and it will be difficult to lift your spirits. But don't sit around the house wallowing in self-pity. Make the effort to meet people - as sharing love and friendship will help to unburden the heaviness of your soul.

Feeling less confident, you may now rely on others much more than usual to make decisions and lead the way. Avoiding the spotlight, you will now let others take the stage and concede to their wishes and actions. In other words, you will put others, needs before your own. This self-sacrifice can actually be beneficial to you in the long term and can be a positive manifestation of this period.

However, do watch your health during this time. Don't ignore any warning signals that your body starts to send out - respect your health.

Obviously, this could alienate friends and loved ones, so conflicts are likely. Think carefully before acting on impulsive decisions - it really is the right time to look before you leap.

Routine

You could now have some difficulty communicating your thoughts or ideas to others. You may therefore prefer to stay silent. On the other hand, you might find yourself chattering on endlessly about anything and everything except things that really matter to you. Either way, the end result could be that you feel misunderstood. There are many changes happening within you, which will affect people around you. In particular, the way you relate to others is now changing and this could cause some conflict or added responsibilities with close family, friends or local residents.

Holding on

The temptation to break free of certain restrictions and responsibilities will be difficult to resist. Craving adventure, excitement, or simply just something new in your life - you could now make a dash for freedom. The only problem, however, is that you may throw the baby out with the bath water. By all means rid yourself of any unnecessary restrictions and burdens - but also make sure that you hold on to anything that is useful and productive.

However, in your haste to break free, this could prove to be a period of extravagance, self-indulgence and empty promises. You could become involved with unreliable people who may temporarily lead you astray, or your own restless and impulsive way of behaving may disrupt the lives of others. If a personal relationship has become either stale or too demanding, either you, or your partner, may now want out.

Avoid the temptation to take on more than you can handle. Don't become involved in grand, over-inflated plans and schemes that, deep down, you know just will not work. Be careful that you don't let others down by promising more than you can deliver. Unstable finances could also cause problems and lead to conflicts.

Feeling ambitious

You are now feeling the effects of a 12-year Jupiter cycle. Think back 12 years, these next few weeks could be history repeating itself! There could also be an incredibly expensive time ahead - so, unless you are in a position to spend an abundance of cash, keep a very tight hold on your purse strings!

Feeling ambitious, wanting to do everything in a very grand and showy way, could be a big problem. Over-confidence and an over-inflated ego could be another problem so don't take on more than you can handle and don't promise more than you can deliver!

There are likely to be arguments with loved ones, close family and friends. That is probably because you will not be quite as sympathetic and compassionate as usual - and also, at the moment, you will be inclined to feel that your word is law and no one should dare to question it! Actually the truth is that you may have problems with legal matters - something perhaps that you've been avoiding and putting off for quite some time.

Business deals and financial transactions should now work to your advantage. Contracts and agreements are likely to be negotiated without delays and proceed smoothly through to completion. This could therefore be an extremely profitable time to make major purchases or investments. Cash flow should also, finally, improve.

This could also be an excellent time to plan for the future because no minor details will escape your notice. You may decide to embark on a new field of study, or retrain for a completely different career. In any case, you will probably feel an insatiable need to learn as much as you can.

All or nothing

This can be an all or nothing period; either a time of tremendous success or extravagant waste. Over-confidence, or an over-inflated ego, could make you promise more than you can deliver. Feeling ambitious, wanting to do everything in a very grand and showy way, could also become a problem as you could make others resentful and envious.

A word of warning: be careful not to over-tire yourself. No matter how much you think you can handle, you are only human and you will get tired from time to time. Therefore, make sure that you allow yourself plenty of time for rest and relaxation.

There are likely to be arguments with loved ones, close family and friends. Stay solid

As you drift aimlessly in a world of fantasy and daydreams, it may be extremely difficult to keep your feet on solid ground during this time! You will find that your mind starts to drift back into time: 'what were those childhood dreams I had?' All this is harmless enough, and you never know, reliving those dreams may be just the incentive you need to try something different; to try and make those dreams come true before it's too late.

Kindness, soft-heartedness and sympathy will be other virtues during this time and you will be prepared to give anyone who needs it a helping hand.

Your thoughts may also turn to the more religious and mystical side of life. Some of you may start a journey either on land, or a mystical journey of learning. You may also find yourself either teaching, or being taught.

Some pleasant news or a small, unexpected, windfall may also come your way as a sort of 'thank you' for a past kindness; long forgotten by yourself, but not by the recipient. All good things come to those who truly deserve them!

In particular, there is likely to be more contact with women, with a friend, wife, or even business partner bringing more comfort and stability into your life.

If a friend asks you for help then don't hesitate doing what you can for them. In time to come this kindness (and much more) will be returned with the same love and support that you, yourself, gave.

You may find yourself dealing with the public much more than usual during this time, so be confident, because the outcome will be extremely successful.

Expect some contact from abroad, especially from friends and family living overseas. They may even surprise you with a visit or a phone call.

Expectations

Considering yourself both invincible and indestructible, you are now likely to place unrealistic expectations on yourself. If you promise more than you can deliver, then squandered energy could result in disappointment and total exhaustion. Beware trying to accomplish too much too fast.

Financial extravagance and blind optimism could deplete your cash flow. You may feel as if your luck is in, but don't be fooled by superficial gloss and dubious get-rich-quick schemes. Money could also be squandered through being over-generous. Generosity is a virtue, but not when it is clouded by ulterior motives.

A devil-may-care attitude, a desire for danger, adventure and impulsive restlessness could cause you to rush headlong into action without sufficient forethought. You could therefore be prone to accidents.

Wanderlust could lead to travel, especially if you feel the urge to escape daily routine and responsibilities.

Lazy afternoons

During this time you may as well resign yourself to the fact that very little will get done. Feeling pleasantly lazy and lethargic, you will much prefer to sit back and enjoy the comforts of life rather than rouse yourself to any action! This would be the perfect time to take a holiday or spend lazy afternoons with old friends.

During this time, there is likely to be much love, exciting romance, and possibly, the formation of new, long lasting friendships. Putting others' needs before your own, your sociable, outgoing and friendly aura could effortlessly attract new friends and lovers to you.

One special individual may certainly have a powerful effect on your life. This person may come from a completely different background or social circle, possibly even from abroad. Do you think you are only flirting? Well be prepared for something more long lasting! Existing relationships could certainly reach that next important stage and become more stable, secure and permanent. All love affairs, marriages and relationships should now benefit from more love, warmth and tenderness, strengthening emotional and sensual bonds.

Travel is also likely during this time.

Wanting to surround yourself with beauty, you will be willing to spend more than usual on splendid, and expensive, luxuries. Just as well that Lady Luck is likely to shine her light upon you with some sort of gift or financial bonus coming your way during this period. Just don't spend it all at once!
